

# **DIY COUCH CLEANING TIPS**

Couches are very much the best comfort zones in our homes apart from our beds. We all love to be a couch potato and binge eat while sitting and watching tv. That makes our couches to deal with a lot of stains and dirt.

# Vacuum Cleaning

Hand vacuum should be used to remove the accumulation of dust and food crumbs on your couches. You can use a brush attachment to your vacuum cleaner and use it to clean the surface.

## Brushes and Lint Rollers

You can buy couch brushes and lint rollers for the removal of hair and pet hair. Long hair can be missed by hand vacuum cleaners so does pet hair. Pet hair is very stubborn to catch and remove and may gather deep inside the couches making it unhealthy for us to sit and relax on our couches.

# Types of Fabric

Couches come with a variety of fabrics and covers. Each type of fabric requires a different way of couch cleaning. You can see the code of fabric type labelled on it.

## Couch Stain Removal

Upholstery cleaning is a simple process but you should always know the most common ways for couch stain removal. Various homemade cleaners and products can be used for couch stain removal.

## Professional Assistance

Although the above-given guide is easy to follow, what if you don't have enough time for routinely upholstery cleaning. Sometimes stains can be stubborn and difficult to remove.

Thank You
